**DEVBHOG**
Chhattisgarh State Dairy

**VERKA**
Punjab State Dairy

**NANDINI**
Karnataka State Dairy

**NK PROTEIN**

NK Proteins is the first edible oil company in India to get food & safety management certification with ISO 22000:2005

**Challenge - Brand mimic & Duplication**

**Market**

- Launched our Q Pack in Arjit Singh’s event!
- New mould in Daman to reduce transport cost.

**User Friendly**

**Multi-Purpose Use**

**Quality**

**Attractive Design**
Little did we know, this Pune based company would grow leaps and bounds to achieve volumes over 2 lakhs per month.

Walko is a Pune based company. After revolutionising choco shakes, they have launched ice creams with the brand name NIC.

Natural ingredients and exceptional decoration using IML resulted in sales growth.

Launch volume was as low as 3000 per month.

Milky Mist Dairy Food Private Limited., is based at Chittode near Erode, Tamilnadu. They Manufacture and Market Premium Quality Dairy products under the brand “Milky Mist”, a brand synonymous for the Unique & Premium Quality Products and well accepted among Consumers throughout South India.
We have been supplying containers to LAZZA since 2018 and will always love to serve them!

Started with Uncle John, major supplier to all 3 brands
Uncle John, Lazza, Skei

They wanted to give the best quality product in a perfect pack! They are synonymous with ice cream in Kerala.

Hatsun Agro Product Ltd. is committed to enriching the lives of customers by providing a range of high-quality dairy products.

We introduced new moulds to supply their entire range of Ice Cream containers

125 ml | 250ml | 500ml | 1000ml
The market leader of snacks, Mondelez, is happy to launch Lickables in creative plastic packaging.

Cadbury considers the pack an ambassador of the high quality chocolate and eye-catching toy attracting kids inside!

- Locking System
- Child Safety Norms
- No Sharp Edges
- Reusability
- Stackability
- Appropriate Tamper Evidence
- Toy Factor

IML label for the bottom container with very small width was challenging and has never been done before in India.

TRANSFORMATION FROM PAPER CUPS TO PLASTIC CONTAINERS

- Visited Filling lines of Nashik Plant
- Product Designed with least disruption
- 4 Cavity Mold within 1.5 Months
- Near ZERO Errors from GO
100% recyclable creates industry headlines

Concern over food safety hampering the use of recycled material

Containers are designed to be easy to use & re-usable. The second life of these containers supports marketing efforts and helps recall the brand.

SUSTAINABILITY

- 100% recyclable creates industry headlines
- Concern over food safety hampering the use of recycled material

BECAUSE
Few have yet to fully consider how, where and who will be supplying and recycling these materials

GOLDEN RULES

- MAKE CONTAINERS RE-USABLE
- MAKE RECYCLING EASY
- VALUE FOR RAG-PICKERS
- RE-CYCLLED APPLICATIONS

IML declared as the most sustainable labelling method!
Some things, IML DOES NOT have to go through

1. Post mould treatment / labelling
2. Utilities, such as electricity and gas, to operate these machines
3. Additional wet or hot melt glue
4. Segregation of label and container
5. Release liner to recycle, incinerate or bury in landfill!
